Dr. Lui Che Woo, Chairman of GEG said:

“Despite continuing headwinds in the Macau market, GEG achieved a very solid 5% increase in revenue and even more satisfactory 13% increase in Adjusted EBITDA in Q3 2015 when compared with the second quarter of 2015. During the quarter, we continued to build on the successful May 2015 launch of Galaxy Macau™ Phase 2 and Broadway Macau™ by opening most of the retail and hospitality facilities. The two new interconnected offerings in Cotai are driving significant visitation across the properties, making Galaxy Macau™ an even more compelling integrated resort.

Feedback from visitors and guests on Galaxy Macau™ Phase 2 and Broadway Macau™ has been positive and we are very proud to have delivered such a high quality integrated resort and enhanced our customer experience. The properties are still ramping-up, with additional new facilities opening through year-end. We are now focused on moving all of our operations up the efficiency curve as rapidly as possible, without compromising customer service. To that end we are driving a cost control program with the goal of delivering \$800 million in savings for the Group.

GEG’s balance sheet remains strong with virtually no debt and generates solid free cash flow. Our resorts have proved to be successful and are well positioned to be even more competitive as the marketplace grows and develops. Given the encouraging results during Golden Week in early October and the positive supportive comments made by the Government we are cautiously optimistic that we are starting to see the market stabilize. Spending behavior in Macau remains cautious, but we are very confident in the longer term outlook and prospects for Macau and for GEG specifically and we are well positioned for the longer term success.

Finally, I would like to take this opportunity to thank all of our 22,000 staff for their commitment to delivering exceptional customer experiences through our renowned ‘World-Class, Asian Heart’ service philosophy each and every day.”

Market Overview

The challenging market conditions that we have experienced over the past year have continued into Q3 this year. A number of factors are weighing on sentiment and these include: the widely publicized anti-corruption program, the slowing Chinese economy, the current smoking restrictions, concerns about liquidity and the fall of the A-Shares index to name a few. Total gaming revenue decreased by 36% year-on-year to \$171 billion for the first nine months of 2015. Third quarter revenue of \$53 billion declined a modest 4% sequentially and 34% year-on-year.

Group Financial Results

The Group posted quarterly revenue of \$12.3 billion and Adjusted EBITDA of \$2.1 billion. As of 30 September 2015, the latest twelve months Adjusted EBITDA decreased 37% year-on-year to \$8.9 billion. During the third quarter, GEG experienced bad luck in gaming operations which reduced its Adjusted EBITDA by approximately \$131 million, otherwise our Adjusted EBITDA would have been 6% higher on a normalized basis.

The Group's total gaming revenue on a management basis¹ in the third quarter of 2015 grew 3% quarter-on-quarter to \$11.5 billion but decreased 33% year-on-year.

GEG's balance sheet at 30 September 2015 remains well capitalized and liquid, with cash on hand of \$6.0 billion and net cash of \$4.8 billion. GEG's debt declined from \$4.8 billion at 30 June 2015 to \$1.2 billion at 30 September 2015 due primarily to repaying debt associated with the treasury management exercise.

Driving Mass Business in an Evolving Market

GEG continues to actively manage its business including its revenue and EBITDA mix consistent with the evolving Macau market trends towards mass. We have achieved this by continuing to grow our mass business including slots by significantly expanding our world class non-gaming amenities such as hotels, retail, entertainment and MICE. Our efforts have resulted in increasing our mass, slots and non-gaming revenue mix from approximately one third of total revenue in Q3 2014 to approximately one half in Q3 2015 on a management basis for our Macau operations with upside as we continue to ramp up our recent resort openings and add new amenities. As a result, mass, slots and non-gaming now accounts for a vast majority of EBITDA while our VIP business represents a much smaller portion of EBITDA despite being the market leader. We will continue to allocate our resources to their highest and best use on a profit contribution basis.

¹ The primary difference between statutory revenue and management basis revenue is the treatment of City Clubs revenue where fee income is reported on a statutory basis and gaming revenue is reported on a management basis.

Galaxy Macau™

Galaxy Macau™'s revenue in the third quarter grew 9% quarter-on-quarter to \$8.7 billion but decreased by 22% year-on-year. Adjusted EBITDA increased 19% quarter-on-quarter to \$1.7 billion but decreased 30% year-on-year.

Adjusted EBITDA margin under HKFRS improved from 18% in Q2 2015 to 19% in Q3 2015 versus Q3 2014's 22%. Adjusted EBITDA margin under US GAAP also improved from 24% in Q2 2015 to 25% in Q3 2015 versus 29% in Q3 2014.

Development Update: Cost Savings, Cotai, Hengqin and International

Galaxy Macau™ Phase 2 Cost Savings

We are presently finalizing our accounts for the development of Galaxy Macau™ Phase 2 and we expect to confirm development cost savings of \$400-\$500 million.

Phases 3 & 4 in Cotai

GEG has a strong development pipeline in Macau. It plans to expand its Cotai footprint by a further one million square meters in the coming years with the addition of Phases 3 & 4. We continue to develop our master plan and site investigation works are expected to commence in early 2016.

Hengqin

GEG continues to advance its conceptual plans to develop a world class destination resort on a 2.7 square kilometer land parcel on Hengqin. The low rise, low density resort will complement the Group's high energy properties located in Macau.

International

GEG continues to actively explore development opportunities in overseas markets. GEG recently completed its first international strategic investment in Société Anonyme des Bains de Mer et du Cercle des Étrangers à Monaco ("SBM").

Special Dividend

On 19 August 2015, we announced another special dividend of \$0.14 per share to be paid on or about 30 October 2015.

Outlook

The Group continues to believe in the long term potential of China and that rising incomes plus the continuing urbanization will drive long term demand for tourism and travel. GEG firmly believes that Macau will benefit from this growth in travel and tourism and remains well positioned to capture its share of this growth.

The opening of Galaxy Macau™ Phase 2 and Broadway Macau™ have attracted significantly more visitors, once again demonstrating the strength of demand in Macau for high quality products and offerings, in general, and GEG's ability to identify and capture this demand, specifically. Overall, the Group continues to refine its products and enhance its competitiveness as other new resorts open in due course and increase the overall attractiveness of Macau as a world class tourism destination. GEG is uniquely positioned with its high quality portfolio of resort properties and extensive development pipeline with Cotai Phases 3 and 4 and Hengqin.

GEG's balance sheet is exceptionally strong with modest debt and net cash of \$4.8 billion. The Group's focus is firmly on continuing to ramp up Galaxy Macau™ Phase 2 and Broadway Macau™, ensuring that all our properties achieve their full potential. We are actively managing costs with savings of up to \$800 million already identified. GEG remains committed to maintaining its high standards of customer service. In the shorter term we are encouraged by the performance during Golden Week and by the recent positive comments made by the Government indicating greater support for the industry and we remain very confident in the longer term outlook.

About Galaxy Entertainment Group (HKEx stock code: 27)

Galaxy Entertainment Group Limited (“GEG” or the “Group”) is one of the world’s leading hospitality and gaming companies. It primarily develops and operates hotels, gaming and integrated resort facilities in Macau. The Group is listed on the Hong Kong Stock Exchange and is a member of the Hang Seng Index.

GEG is one of six gaming concessionaires in Macau with a track record of delivering innovative, spectacular and industry leading properties, products and services, underpinned by a “World Class, Asian Heart” service philosophy, that has enabled it to consistently outperform the wider market.

GEG operates three flagship venues in Macau: on Cotai, Galaxy Macau™, one of the world’s largest integrated destination resorts, and the adjoining Broadway Macau™, a new hotel, entertainment and retail landmark destination; and on the Peninsula, StarWorld Macau, an award winning high end boutique property.

The Group has the largest development pipeline of any concessionaire in Macau. When Phases 3 & 4 of its Cotai landbank are completed, GEG’s footprint on Cotai will double to more than 2 million square meters. GEG has also entered into a framework agreement to develop a low rise, low density world class destination resort on a 2.7 square kilometer land parcel on Hengqin adjacent to Macau. This resort will complement GEG’s offer in Macau, differentiate it from its peers and support Macau in its vision to become a World Centre of Tourism and Leisure. Additionally, we continue to explore international development opportunities.

GEG is committed to delivering unique ‘World Class, Asian Heart’ holiday experiences to its guests and building a sustainable future for Macau.

GEG also operates a Construction Materials Division.
